

THE BUILDING BLOCKS OF HIGH-QUALITY

ONLINE EDUCATION

Since 1831, the University of New England has been committed to providing students with a high-quality education. In 2009, UNE entered the online education space, and we have expanded our commitment to excellence ever since. We are continually innovating – and it shows. Despite a global pandemic and multiple other outside influences, **we got a lot done here at CGPS in 2020:**

583
